Catalão-GO

Objective

Seeking opportunities in Tech, Bioinformatics, or Administrative roles where I can apply my background in Biology, Bioengineering, and Data Science to contribute to innovative projects and support operational activities.

Summary of Qualifications

- Experienced Python Developer, Bioinformatician, and Data Scientist passionate about solving complex problems with technology and uncovering insights from large datasets.
- Proficient in Linux, Git, RStudio for statistical analysis, and a range of bioinformatics tools and frameworks.
- Extensive knowledge in data analysis, visualization, and scripting with Python. Experienced with machine learning frameworks such as Keras, FastAI, Sklearn, and AWS infrastructure.
- Strong communicator, dedicated to understanding clients' needs and exceeding expectations. Proven track record of delivering projects on time and within budget.

Technical Skills

- **Programming Languages:** Python (Proficient), JavaScript (Intermediate)
- **Web Development:** HTML, CSS, JavaScript, Node.js, Angular
- **Bioinformatics:** Data analysis, statistical modeling, machine learning
- **Statistical Tools:** RStudio, Python (Numpy, Pandas, Matplotlib)
- **Machine Learning Frameworks:** Keras, FastAI, Sklearn
- **Infrastructure:** AWS Cloud services
- **Version Control:** Git, GitHub
- **Operating Systems:** Linux (Proficient), Windows, MacOS

Education

Bachelor's Degree in Biological Sciences

Graduated Nov 2023

Universidade Federal de Catalão (UFCAT) — 3288 hours completed

Bioengineering Coursework – Focus on computational biology and data science.

Professional Experience

Therapeutic Companion (Acompanhante Terapêutica)

Sep 2023 – Sep 2024

Unimed (Núcleo de Desenvolvimento Infantil), Catalão-GO

- Provided therapeutic support to children in developmental therapy programs.
